

An easy decision

Staples® Ink and Toner Recycling Program

Staples is committed to promoting environmental responsibility and protecting our natural resources.

For more information about developing a recycling program for your company, contact your Staples Account Manager.

Used ink and toner cartridges that are not disposed of properly can pose a significant threat to our environment. By working together, we can limit the number of cartridges being sent to landfills — where they can take about one thousand years to decompose. Staples makes it easy for you to recycle with our Ink and Toner Recycling Program.

Put your empty cartridges into our recycling containers. We'll do the rest. We offer a few easy options for cartridge recycling. Choose the way that works best for your company:

	Description	How
Toner Cartridge Recycling Box 	<ul style="list-style-type: none"> • FREE 20" x 20" x 22" self-addressed, prepaid postage collection box • Holds up to eight empty toner cartridges • Box is made up of an average of 43% recycled post-consumer content • Best if you use more than 15 large toner cartridges per month 	<ul style="list-style-type: none"> • Add Staples Item No. 566923 to your next order
